 Address _____

Project Information

Project Name _____
 City _____ Province/State _____
 Architect _____ Phone/Fax _____
 Mech. _____
 Engineer _____ Phone/Fax _____
 Start Date _____ Building Size _____ Sq. Ft.

Project Details

Type of installation:

- New Building
- Retrofit
- Quality of Building Construction:
 Excellent / Good / Fair / Not Good

Energy source(s) being used / contemplated?

- _____
- _____
- _____
- _____

Usage of Recovered Heat:

- Domestic Hot Water Production
- Space Heating and/or Cooling
- Combined DHW & Space Heating/cooling
 - Heat Pump(s) Will be REQUIRED
 - Heat Pump(s) Will NOT be REQUIRED

Local Utility Costs:

- Natural Gas \$ _____
- Electricity \$ _____
- Water \$ _____
- Steam \$ _____
- Oil \$ _____

Estimated Building HVAC Loads:

- Heating MBH _____
- Cooling TONS _____

Building Usage:

- Residential / Commercial / Institutional
- # of dwelling units _____

Wastewater / Sewage Information

What type of Sewage supply is available?

Direct from Sewer Main

Building Collection Tank Required

• Sewage Provider:

• Supply Qty (GPM): _____

• Pipe Diameter: _____

• Pipe Construction: _____

Has a calculation or estimate been made for any / all of the following?

- a. **Peak** overall sewage/sanitary flow rate (Gals/Hr or Gals/Min or Gals/Day);
- b. **Average** overall sewage/sanitary flow rate (Gals/Hr or Gals/Min or Gals/Day);
- c. **Overall** site water consumption and % of that figure that is to be heated.

Will there will be one location (exit point) available for the site sanitary connection to the municipal system?

Additional Information

If this is a multi-unit residential application, will any utilities (Gas / Electricity / Water) be metered at the individual apartment level?

Are any utilities charged based on time-of-day rates, and if so are the rate schedules available?

Will the project incorporate a GEOTHERMAL System?

Additional Comments:
